- [ ] 30. Walking on Sunshine

How to play: Music Bingo (Sample)

Play songs in your own music player. Agree whether a short clip or the full song counts. Players mark a song title only after hearing it. Record each played title on the activity checklist. The website does not play music, import playlists or recognize songs.

Give each player a card. Mark the center FREE space at the start.

A full row, column or diagonal is a line. Ask the organizer to confirm a win manually. The web caller and checker do not verify these observations or personal conditions.

Save the project JSON if you need the same layouts again. Print at Actual size / 100%. Use one card per sheet for generous handwriting room.
